## MINING, BUSINESS AND STOCKS

# MR. NEWHOUSE ON HIS MINES

Will Visit the Cactus of Beaver County Within the Next Few Days.

OPINION OF BOSTON CON

Says it is One of the Great Discoveries Of the Age-The Future of Copper.

Samuel Newhouse returned home last evening after an absence of sevcral months, a part of which were spent abroad, and is again giving his personal attention to the great mining enterprises in this state over which he

As to conditions at the Cactus mine in Beaver county, operated by the Newhouse Mines and Smelters corporation, Mr. Newhouse said he had been informed that they are of a very grati-fying character and that recent develfying character and that recent developments only go to confirm what he has said in the past—that the Cactus is a big copper mine. "I am going to visit the Cactus in a few days," said Mr. Newhouse, "and until I can see it myself I would rather defer making any statement. But when I return," continued the mining magnate. "I will gladly give the members of the press all the information I can. If the situation looks good, or if it looks bad to me, I shall say so. I want the public to understand conditions at the Cactus just as they are."

Cactus just as they are."
When asked to say something about
the Boston Consolidated, Mr. New-

the Boston Consolidated, Mr. Newhouse was prompt to respond in a manner which indicated that he considers this Bingham mine to be the banner one of his promotions.

"I consider," said Mr. Newhouse, "that the Boston Consolidated is one of the great discoveries of the age. Leaving aside the vast deposits of porphyry containing copper, we have now a sulphide mine that will rank with any in America—not alone in tonnage, but in gold, silver and copper. You will probably remember that I advised shareholders of the Boston a year or so ago, when the stock was selling around \$3\$, to not let go; but to year or so ago, when the stock was selling around \$3, to not let go; but to hold on to their interests for higher prices. I will repeat that advice now with the stock valued at about \$35, for I look to see it sell for \$100 a share.

"No combination of individuals, or matter the value are affect the value."

smelting concerns, can affect the value of the Boston Consolidated mine, for of the Boston Consolidated mine, for it stands out alone perfectly able to take care of itself. Its wonderful ore bodies stand as a guarantee for the making of dividends for at least a half a century, and on a basis which should make the shares of the corporation maintain a valuation of \$100 apiece. This is a broad statement to make, but I will say this in face of the fact that the time may come when copper will sink four or five cents a pound."

Mr. Newhouse looks for a further advance in copper. Notwithstanding the unprecedented activity displayed during the present year in the mining

during the present year in the mining camps, the production of the metal, he says, has not thus far, come up to the corresponding months of last year, while on the other hand, the consumption has been very much greater; buy ers of copper simply cannot get enough copper to meet the demands of the consumers; consequently the reserve stocks are depleted and leaves a condition which cannot help but tend to-wards higher prices.

#### WEEK ON THE EXCHANGE. Market Closed in Good Form-Today's Quotations and Sales.

up to those of last on the local change, but the market closed in good form. While the trading has been conform. to those of last on the local exform. While the trading has been confined to a very great extent to Tintic stocks, there has been a good deal of attention paid to Park City and Alta shares. Daily Judge cominues to hang around \$11 and \$11.50, closing today on a sale at \$11.12\%. The sensation of the week was furnished by Newhouse stock and the east has been flooded with western orders.

The closing quotations and sales to-

Growing.

In discussing market conditions to-day, William H. Tibbals, the broker, takes an optimistic view of the fu-

takes an optimistic view of the future.

"The daily reports of the New York stock market," says Mr. Tibbals, "have shown a unsteady condition. There was, however, yesterday, a very marked upward tendency. The condition in the money market is improved, but probably the greatest stimulant was probably the greatest stimulant was the transaction involving about \$400,-600,000 for the transfer of iron ore from the hill interests to steel trust. "While the general stock market has been somewhat sluggish during

the week a glance at the reports re-garding the transactions on the Boston market shows a very marked in-crease in the sale of copper stocks. Private advices received this morning from Boston express the opinion of one of the leading metal brokers of that city that if there were a large amount of copper to be sold it would readily bring 21 cents a pound. A readily bring 21 cents a pound. A little inquiry as to the cause for the high price of copper reveals the fact that firms who are continually using copper have orders as far ahead as next June. If there should be a little easing in business, copper will be in pretty good demand for the next nine months, and, therefore, we may look for a steady and increasing demand of a copper stocks. If there should be any reactions, owing to speculative advances and declines, all such reactions should be taken advantage of.

"Private advices from Philadelphia, Pitisburg and Cincinnati show that in these sections there is a demand for Nevada stocks. While Boston is the center for copper stocks and New York the most active center for gold stocks. Philadelphia, Pittsburg and Cincinnati are experiencing a considerable awakening of mining interests, We may, therefore, look for a continuance of the present good business in our mining stocks."

## TINTIC ORE SHIPMENTS. Centennial Eureka and Mammoth Lead in Tonnage.

The ore shipments from the Tintic mining district during the past week reached a total of 142 carloads, the reached a total of 142 carloads, the shippers and respective amounts being: Ajax, 6; Beck Tunnel, 10; Black Jack, 1; Bullion Beck, 8; Carisa, 3; Centennial Eureka, 38; Dragon Iron, 6; Eagle & Blue Bell, 6; Eureka Hill leasers, 4; Gemini, 10; Grand Central, 3; Laclede, 1; Lower Mammoth, 2; Mammoth, 23; May Day, 2; Scranton, 4; Star Consolidated, 2; Sunbeam lease, 2; Swansea, 2; Uncle Sam, 1; Victoria, 6; Yankee Con., 4. Total carloads, 142.

#### UTAH CON. WON THIS SMOKE SUIT.

The Uath Consolidated Mining company won a signal victory yesterday afternoon in one of the smelter smoke cases filed in the district court sometime ago and in which it figured as defendant. In this case, Mohr Touse appeared as plaintiff and in his complaint alleged that his crops and premises had been damaged to the extent of \$3,000, for which sum he prayed for a judgment. Trial was had in Judge Morse's division before a jury which brought in a verdict in favor of the mining company, the costs being taxed to the plaintiff.

# CONTACT VEIN

Important Developments Were Made in Daly West Mine This Week.

BAMBERGER'S STATEMENT.

Ore Body Encountered is Large One -Means Much for Future of Park City Property.

For several days there has been a stiffening in the price of Daly West stock, and local brokers have had numerous orders for it from the east. Although transfers on the exchange have not been many the interest aroused led to the suspicion that possibly some important developments had been made at the mine, which was confirmed today by President Jacob E. Bamberger.

For some time past the management has been devoting all its energy towards extending the 900 level to the Little Bell contact vein, and President Bamberger says this has been accom-plished. Owing to a fault in the for-mation the objective noint was not reached as soon as was expected, but the ore was broken into a few days

ago in an upraise.
President Bamberger declared today that the extent of the ore body has not been definitely ascertained, but has reasons to believe it will prove every bit as important as the management has hoped for, which practically means the making of a new mine out of the Daly West.

#### ASSAYERS MEET. Plans Being Made for Interstate Meet In December.

The regular monthly meeting of the members of the Western Association of Technical Chemists and Metallurgists was held in the Commercial club last

evening and an interesting paper was read by D. J. Kelly, comparing the chemical and the fire assay of ores and the advantages of the former over the latter. It was shown that the difference is more marked in the case of lead assays, fire assay returns frequently falling to show within 75 percent of the amount of lead actually existing. This applies more particularly to ores carrying zinc and iron sulphides. It is claimed for the chemical assay that it is quicker, cheaper and more accurate and is really the and more accurate, and is really the only scientific assay possible.

A general meeting of the entire as-

sociation throughout the intermountain country was decided upon for next December, to be held in Salt Lake under the auspices of the Utah section of the organization. Committees were appointed on entertainment, pro-gram and publicity with instructions to prepare a report to be read at the to prepare a report to be read at the next regular meeting, when the date of the general meeting will be set.

The committees were composed as follows: Publicity—A. W. G. Wilson, W. C. Ebaugh and W. Blumm. Program—J. W. Curry, J. M. Callow and E. Pembroke. Entertainment—C. C. Crismon, D. J. Kelly and B. W. Deason.

#### LO. MAMMOTH MEETING. Date of Special Shareholders' Meeting Changed to Nov. 8.

The directors of the Lower Mam-The directors of the Lower Mammoth Mining company, at a meeting held yesterday afternoon, ordered a change made in the forthcoming special meeting of shareholders at which the matter of increasing the capital stock of the corporation will come up for consideration. A local newspaper which was entrusted with the notice calling the meeting made an error in printing it, thus necessitating a change of dates as well as putting the office force to a lot of trouble in advising force to a lot of trouble in advising shareholders of the change by mail. The new date was fixed for Nov. 8.

## CONCENTRATES.

A. J. Davis came in from the east yesterday where he has been on min-ing business.

Another strike of considerable importance is said to have been made in the property of the National Mining company at Cherry Creek.

The management of the Nevada Hills company is anticipating come interesting news from camp almost any hour telling of the cutting of the vein in the lower tunnel.

President W. G. Sharp and Managing Director Holden of the United States Smelting, Refining and Mining company, departed for the west today, their first objective point being Eureka, Nev., to inspect the company's lead-silver mines in that camp.

The management of the Honerine Mining company at Stockton has decided to increase ore output and another shift goes into service in the mill today. A contract has been let to James Quinn, former superintendent of the Buckhorne mine at Ophir, has entered into a contract to begin stoping from the Bull stope and has agreed. ing from the Buhl stope and has agreed to move 200 tons of ore daily.

F. W. Maclellan who has charge of the development of the Witch copper property at Ely. Nevada, and owned by R. H. Channing, Jr., of this city, is in the city and brought with him a bag of sample ore showing values of better than 6 per cent copper. The Witch property is situated in the heart of the big mineralized zone of Ely and is almost completely surrounded by properties belonging to the Nevada Consolidated. F. W. Maclellan who has charge of

All printing specially attended to at the Descret News Office. Estimates promptly furnished. Rush orders a specialty.

of any kind are invited to call and see us. George M. Cannon Company, Rooms 512-513 Templeton Bidg.

A good time to buy stocks for investment is when other people want to sell. A good time to sell stocks on which you have made a profit is when other people want to buy. There are people of both kinds, and our business enables us to bring buyer and seller together. No trouble to answer either questions or letters.

GEORGE M. CANNON COM-PANY, 512-513 Templeton Bldg. Phone-Bell 57.

### BUSINESS NOTES.

The past week has witnessed the payment of several dividends, and the closing of stock transfer books, so that many of the stocks quoted below are now ex-dividend. The main transfers of the week have been in the sugars, Utah common having mounted to \$2.65, with several blocks changing hands. Idaho and Western are also in demand at stiff advances.

Consolidated Wagon & Machine company will pay its third quarterly dividend Wednesday next, and the reports that come from the company show that it was never in more flourishing condi-

All the 10 sugar factories owned by Utah and Idaho people are now running at full blast, and something over a million and a quarter pounds of pure refined sugar are turned out every 24 hours. The first big pay day for beets for all companies will occur on the 15th, but the amount to be paid out will not greatly exceed a quarter of a million dollars, as the great part of the beet digging is done during October. For this the farmers receive their checks Nov. 15, and at that time it is estimat-ed that The Utah Sugar company, the Idaho Sugar company, the Western Idaho Sugar company, the Western Idaho Sugar company, the Amalgamated Sugar company and the Lewiston Sugar company will disburse over \$2,000,600 to the beet growers.

## STATE STREET DRAWS THE CONFERENCE THRONGS.

The growing importance of State street was never more in evidence than at Conference time. The big part of the crowd, of course, assembles around the Consolidated Wagon & Machine company, where the vast display of agricultural implements is one of the sights of the city. Unique advertising cultural implements is one of the sights of the city. Unique advertising novelties, which include the photogravure of President Smith and party at the premises of the Bain Wagon Company at Kenosha, Wis., are freely distributed, and eagerly sought for. The concert in the vehicle department also attracts heavy crowds.

The statement is freely indused in

heavy crowds.

The statement is freely indulged in on State Street, (one of the longest streets in America, by the way) that within the next fifteen or twenty years, that street will be the great shopping avenue of the town, and that big department stores and millinery establishments will take the place of vehicle houses, which will be moved to their proper places near the railroad tracks.

# WEEK'S CLOSE IN STOCKS IRREGULAR

Dealings at First Feverish Under Influence of Announcement Of Ore Deal Terms.

SOME EXTENSIVE REALIZING

Aided Bears in Their Work of Depression-Some Sharp Recoveries From Downward Movement.

New York, Oct. 6 .- Opening dealings in stock market were feverish and irregular under the influence of the long expected announcement of the terms of the ore deal. Changes were generally narrow on a large volume of transactions and realizing was in evidence in someof specula-tive favorites. First sales of United States Steel were of 8,000 shares at 49 and 48% compared with 49 last night, the price then advanced a fraction. General Electric shot up 614. Gheat Northern preferred opened down % and then railed 2 points. Northern Pacific lost 1 and B.

The stock market became heavy, particularly for the western stocks. Extensive realizing in some of yesterday's buoyant features facilitated the work of bears in depressing prices. St. Paul and Colorado Fuel feli 2 points and Atchison and Great Northern preferred 1. The downward movement haited before 11 o'clock and there were some sharp recoveries. Temessee Coal. jumped 1% and Erie and Northwestern 1.

The market closed unsettled and ir-

the market closed unsettled and iri.ar. Trading was listless and prices
ted sluggishly over a narrow range,
tessions after the appearance of the
k statement carried great Northern
ferred 3½ below last night, Vulcan de
ning preferred 2½, Northern Pacific and
s-Sheffield Steel 2, New York Cen½, Reading, Linseed Gil and U. S.
1 %.

General lectric rose an extreme 7¼ and reacted 2½. Eric second rose 1½ and internal pump preferred 1½. Eric recovered to 1½ above last night and hardened for a time.

#### **MOB TAKES PRISONERS FROM** SHERIFF AND HANGS THEM

Mobile, Ala., Oct., 6.—Two hundred masked men met Sheriff Powers with the two negroes charged with assault at Richards' switch, three miles north of Mobile, on the Southern railway, took his prisoners from him and hanged them on the spot. No others were hurt. The negroes had been taken to Birmingham for safe keeping and were being brought to Mobile for trial.

Tremendous crowds surrounded the railroad station during the morning and when the report of the lynching of the negroes was received the greatest cx-citement prevailed. The crowd was apparently dissatisfied with the method of lynching (hanging), and a mob has departed for the scene of the lynching with the declared intention of burning the bodies.
